The Queens Rental Market Report TM is based on a cross-section of data from available listings and priced under \$10,000, with ultraluxury property omitted to obtain a true monthly rental average. Our data is aggregated from the MNS proprietary database and sampled from a specific mid-month point to record current rental rates offered by landlords during that particular month. It is then combined with information from the REBNY Real Estate Listings Source (RLS), OnLine Residential (OLR.com) and R.O.L.E.X. (Real Plus).
